## **A. Introductie (commentary)**

Humaniforest was launched in 2019, however 2020 was the first year Humaniforest was operational. Humaniforest is a foundation that empowers communities to restore and protect their natural environment. Members of Humaniforest believe rural communities are key players in the conservation of vulnerable ecosystems and wildlife. We work bottom up to offer opportunities to communities while relieving pressure on precious ecosystems and wildlife.

Humaniforest has a branch in Cameroon and the Netherlands. These financial statements cover the activities of the Dutch branch in 2020. However, due to the ongoing crisis in Southwest and Northwest regions of Cameroon, activities of Humaniforest Cameroon and Netherlands are both limited. Only in a small area around Buea and Limbe project activities are possible.

In pursuing our vision and mission, we aim to build an African alliance of local embedded NGOs to collectively empower more communities to develop in balance with their natural environment. In 2020 our Cameroonian branch established the first contacts with NGOs from other African countries. This will be continued in 2021.
